## Topic

Overall Strategy of the LAP

## Submission

For the Blessington Local Area Plan.

We need a track and West Wicklow needs proper athletics facilities.

Request that Wicklow County Council designates sufficient land in the town to accommodate a 400 meter track and associated facilities.

This would be a facility that would be available to all the community- school, striders, community games etc. for our family & community.

We have been living in Blessington since we bought our home in 2006.

We have two teenage children who can benefit from these local facilities instead of having to commute to Naas, Newbridge, Tallaght or Dublin.

This will be a great opportunity and should not be wasted.

This will impact our community for decades. There is no proper track in west Wicklow and it's about time that changed.

Hi All.

A Zone area for an Athletic Track for the Lakeside Community will be life changing for our family and the West Wicklow community

Hi All.

A Zone area for an Athletic Track for the Lakeside Community will be life changing for our family and the West

Wicklow community

Also better secondary school facilities will support our teenagers education and wellbeing.

### Topic

Local Transport Assessment / Transport Strategy Map

### Submission

School shuttles to Newbridge College and other nearby secondary schools.

Also if the lias can be extended from Suggest to Blessington which would support commuters.

Express bus service to Dublin would be beneficial since the 65 is very slow stopping at multiple stops in Tallaght village, slowing the commute time.
